## Word Problems – 2×2

Read each problem and write the answer in the box. Please show any work you do. You may show your work on the back, too. If you do work on scratch paper, you **MUST** attach it to your homework.

<p>1) There are 48 packages of M&amp;M's in a case. If Sam buys 18 cases, how many M&amp;M's does he have altogether?</p>	<p>2) It takes 28 gallons of paint to paint a house. How many gallons will it take to paint 27 houses?</p>
<p>3) If the quarterback throws 34 touchdown passes every season, how many passes will he have after 12 seasons?</p>	<p>4) Susan saw some great bowls at Crate &amp; Barrel that cost \$39 each. If she buys bowls for 73 of her friends, how much money will she have to spend?</p>
<p>5) A big box of Crayola crayons has 64 crayons in it. If each 4<sup>th</sup> grader (67) brought a box in, how many crayons would there be altogether?</p>	<p>6) <b>CHALLENGE:</b> Student council had a hot dog sale. Each package of hot dogs contains 18 hot dogs. If student council bought 59 packages, and sold ALL the hot dogs for \$3 each, how much money would they make?</p>

On the back, make up a problem of your own and answer it.
