## Division Word Problems – Room 19-style

Read each problem carefully and write the answer in the box. Be sure to LABEL YOUR ANSWERS. Please show any work you do. You may show your work on the back, too. If you do work on scratch paper, you MUST attach it to your homework.

<p>1) There were 716 footballs at a football company. They wanted to ship them in groups of 9. How many groups of 9 would there be? <i>(submitted by Will F.)</i></p>	<p>2) There were 317 paint brushes in the artist's studio. If each artist took 5 paint brushes, how many artists would get 5? How many paint brushes would be left over? <i>(submitted by Sophia)</i></p>
<p>3) Bill goes to the market and buys 872 apples for a party. If everybody got 7 apples, how many people were invited? How many apples were left over? <i>(submitted by Katherine)</i></p>	<p>4) There were 267 kids in a school. The teachers split up the kids into 9 teams. How many kids will there be in each team and how many kids would be left over? <i>(submitted by Madeleine)</i></p>
<p>5) Grace had 653 gummy bears. She wanted to split them into equal piles of 3. How piles will Grace have? How many gummy bears would be left over? <i>(submitted by Grace)</i></p>	<p>6) If Jack's allowance was \$112 a month, how money would he get weekly in the month of February? <i>(submitted by Chris)</i></p>
