## Division Word Problems – Day 3

### What to do with the remainders?

*Read each problem carefully and write the answer in the box. Be sure to LABEL YOUR ANSWERS. Please show any work you do. You may show your work on the back, too. If you do work on scratch paper, you MUST attach it to your homework.*

<p>1) 53 people were driving to a wedding in another town. If 7 people can fit in a car, how many cars would they need to get everyone to the wedding?</p>	<p>2) The Red Cross had 317 medical packs to ship to Haiti. If 8 packs can fit in a box, how many boxes would they need to ship all the packs to Haiti?</p>
<p>3) 87 were waiting for an in the lobby of a hotel. If each elevator can hold six people, how many elevators will they need to take everyone where they're going?</p>	<p>4) Mr. Wartik has 66 DVDs at his house. If each shelf can hold 9 DVDs, how many shelves does he need to hold all the DVDs?</p>
<p>5) Ms. Connell bought 142 pencils and wants to put them in her Wisconsin Badgers pencil cases. If each pencil case holds 5 pencils, how many pencil cases does she need to hold all of the pencils?</p>	<p>6) Try to make up a division word problem like the ones on this sheet. Write it below (or on the back) and then solve it.</p>
