Word Problems – 2×1

Read each problem and write the answer in the box. Please show any work you do. You may show your work on the back, too. If you do work on scratch paper, you MUST attach it to your homework.

<p>1) There are 48 lollipops in each carton. If Sam buys 8 cartons, how many lollipops does he have altogether?</p>	<p>2) It takes 28 gallons of paint to paint a house. How many gallons will it take to paint 7 houses?</p>
<p>3) If a baseball player hit 56 home runs every season, how many home runs would he have after 6 seasons?</p>	<p>4) Susan saw some great bowls at Crate & Barrel that cost \$9 each. If she buys bowls for 73 of her friends, how much money will she have to spend?</p>
<p>5) A half-dozen box of Krispy Kremes has six donuts in it. If every 4th grader (96) brought a box into school, how many donuts would there be altogether?</p>	<p>6) Make up your own problem here and show the answer on the back.</p>
